

Eden – More Than a Coating
Antibacterial Eco-Friendly Air-Purifying Protective.

Eden

- In a world where air quality, surface hygiene, and environmental responsibility are top priorities for modern construction and industrial projects, Edén, developed by Samrad Holding, offers a truly next-generation solution.

Edén is not just a paint – it's a multi-functional intelligent coating that combines aesthetic beauty, environmental safety, and high performance in one formula.

With Edén, every square meter you coat helps clean a cubic meter of air – turning walls into active purifiers that work silently in the background.

What Makes Eden Different?

Eden is the result of years of research, development, and laboratory testing by Samrad expert team.

Crafted from %100 herbal-based ingredients, Eden contains no harmful chemicals or oxidizers, and yet it provides capabilities rarely seen in conventional coatings.

Key Features of Eden:

Air Purification

Eden actively filters the air by reducing pollutants such as carbon monoxide (CO). When applied indoors, it enhances air quality and creates a healthier living or working environment.

Antibacterial Protection

Formulated with strong antimicrobial and antifungal properties, Eden prevents bacterial and mold growth on coated surfaces – making it ideal for healthcare facilities, schools, residential areas, and public spaces.

Fast Drying Formula

Eden dramatically reduces project downtime with its quick-dry feature, offering greater efficiency without compromising quality.

Herbal-Based & Eco-Friendly

Made from natural, plant-based compounds, Eden is non-toxic, safe for humans and animals, and contributes to reducing the environmental footprint of your project.

Versatile Color Range & Long-Lasting Finish

Available in a wide spectrum of colors, finishes, and textures, Eden delivers a flawless and durable appearance – suitable for both primer and topcoat applications on interior and exterior surfaces.

Applications:

Modern architectural and construction projects

Hospitals, clinics, and educational institutions

Manufacturing plants and industrial facilities

Eco-friendly certified buildings (LEED, WELL, etc.)

Residential homes prioritizing clean air and safety

Samrad Holding Services & Support:

Free product samples available on request

Fast delivery: within 2 to 3 business days

6-month performance warranty on all Eden purchases

Technical support and consultation before and during application

Eden

✨ ***Eden is for those who want more than just color.***

It's for those who value health, air quality, safety, durability, and design.
